

GUARDIANS OF CREATION

Pupil Leadership Action Plan 2024/5

Review of last year – what did we achieve? What impact did it have on our school family?

Last year, we were a new group. We had training with Emily at the Laudato Si centre. We learned how to water and look after plants, about the bugs and the bees and we learned about the different parts of Bishop John's garden. The best part about the training was making the bird feeders and it made us think about different things we can do back in school. We tried to put this into practice in school by helping with the care of our prayer garden, our clothes bank and by trying to save electricity by turning off the lights.

At school, we learned about Pope Francis's letter called 'Laudato Si'. We also enjoy praying together as a team and planning celebration of the Word. Our message was about looking after God's world - our common home, like Pope Francis asked us to. Last year we also entered a recycling competition and won £5000 for school! It will be spent making Forest School safe and useable so we can all enjoy spending more time in God's world.

Overall Objective:

What will success look like?

<i>To continue to lead the way in doing small things with great love that will help look after our common home.</i>		<ul style="list-style-type: none"> • We will have more knowledge about how to be good stewards of creation • Our school family will know more about our responsibilities to look after each other and the world. • We will have helped our school family to have a positive impact on our school, its grounds and the wider world. 	
What will we want to do?		What will this look like?	REVIEW BOX – how are we getting on?
A	We would like to learn more about recycling and about looking after plants and insects so we can do things properly and share the knowledge with rest of the school.	<ul style="list-style-type: none"> • Further training with Emily from Laudato Si • Eco Training at LL library • Visit to recycling centre 	
B	We want to share any new knowledge and most importantly, we want to encourage and inspire others in our school family and community to look after the world.	Assemblies – we could have a spot in KS2 assembly eg/ about how to separate rubbish in the playground and dinner hall. We could share our ideas on the newsletter or with posters.	
C	We will have a plan for the year with projects that match the time of year/ season.	Litter picking Recycling Climate competition Bird Boxes
